

Build Date: 2013-03-07; Version: 3.1

===== New Features/Changes =====

- Added compatibility with Windows 8.
- Added ability to open release notes in a browser for printing.

===== Bug Fixes =====

- When the installer is first launched on a new computer, it doesn't give an error about not finding install files anymore.
- On Mac only, the Dock was not correctly updated when installing applications. This is fixed.
