	How many of these areas are not networked to the office?		
Internet	Do you have high speed internet?		

SOFTWARE PRICING	
Rental Option	\$ _____ / month. Paid quarterly. Bills are sent out at the beginning of each quarter. This option includes ten hours of support per year and continual upgrades while renting. Additional support is \$50.00/hour. Initial setup does not count toward support hours.
Purchase Option	\$ _____ This option included ten hours of support per year and all upgrades for three years from purchase date. At the end of the three years you will have the option of purchasing support and upgrades for another three years or continue using the existing version indefinitely. Additional support is \$50.00/hour. Initial setup does not count toward support hours.

A note about the transition date: you will need to choose a specific date when you will transition from your current system to Fusion. This date is typically at the end of a billing period, usually at the end of the month. Ideally, all the hardware will be installed and tested two to four weeks before this date, depending on the size of your operation. This will give a few weeks for you to get Fusion itself set up and for you to become comfortable with using it. Then, on the morning of the transition date, you will click one button and Fusion will be live. At this point you will be feeding and treating animals with Fusion.

HARDWARE RECOMMENDATIONS	
SSG Fusion Ltd. does not sell or maintain hardware. However, Fusion requires some specific hardware that is not easy to source or set up. We would be happy to connect you with a company with specific experience in dealing with the hardware and related set up. If you would prefer to source your own hardware please be mindful of the minimum requirements which are found on our website (www.ssgfusion.com).
